

# 43<sup>ème</sup> Congrès National d'Anesthésie Réanimation STAAR

2&3 October 2026, The Russelior  
Hôtel, Hammamet

Friday 2<sup>nd</sup> October 2026

**8h30-10h15**

**Session** *Artificial intelligence in anesthesiology and intensive care : Benefits and applications*

AI in difficult airway prediction **Dr Anouar Jarraya**

AI for prognostication in the ICU **Dr Aicha Rebai**

AI : ethics and responsibilities **Dr Nidhal Haj Salem**

AI as a diagnostic tool **Dr Chihebeddine Romdhani**

**10h15-10h45: Break & Exhibition hall visit**

**10h45-12h**

**Session** *One health concept in anesthesiology : myth or reality ?*

One health concept from the veterinarian's point of view **Dr Chokri Maalem**

One health concept : the anesthesiologist's point of view **Dr Alia Jebri**

Rethinking the organization of the operating rooms **Dr Mhamed Sami Mebazaa**

Economical aspects and environmental impact of anesthesia **Dr Mohamed Kahloul**

**12h-14h: Break & Exhibition hall visit**

**14h-15h30**

**Session** *End of life and comfort care in the ICU*

End of life in the ICU : between legal needs and reality **Dr Nidhal Haj Salem**

Comfort care in the ICU : optional or mandatory ? **Dr Slah Souii**

Relatives information in the ICU: techniques and impact **Dr Salma Ktata**

Maastricht III : Which gaps between needs and Tunisian realities **Dr Salah Mhamdi**

### 15h30-16h30: Break & Exhibition hall visit

### 16h30-17h45

**Session** *Mechanical ventilation : from start to weaning*

ARDS in brain injured patients : which ventilation strategy **Dr Samir Jaber**

Tailored ventilation : between over distension and recruitment **Dr Samir Jaber**

Cardiac failure during weaning from mechanical ventilation **Dr Asma Ben Souissi**

Monitoring mechanical ventilation with ultrasound **Dr Mechaal Ben Ali**

## Saturday 3<sup>rd</sup> October 2026

### 8h30-10h15

**Session** *infectious disease in the ICU*

Digestive tract and lung interaction in the ICU patient **Dr Becem Trablesi**

Antibiotic prescription optimization during extracorporeal support **Dr Mathieu Desmard**

Dealing with PK/PD and TDM : which perspectives **Dr Tarak Atallah**

How to optimize antibiotic associations in multiresistant Gram negative bacteria **Dr Mathieu Desmard**

### 10h15-10h45 : Break & Exhibition hall visit

### 10h45-12h

**Session** *Nutrition and metabolic impairments in the ICU*

Parenteral nutrition in the ICU : When, Why and in Whom ? **Dr Hela Attia**

Hemadsorption : principles, indications and limitations **Dr Sigismond Lazouki**

Organ perfusion ; how to optimize with ultrasound **Dr Walid Sellami**

Bicarbonates in the ICU : When, Why and How ? **Dr Sonia Ouerghi**

## 12h-14h: Break & Exhibition hall visit

## 14h-15h30

### **Session** *Obstetrics*

How to monitor blood transfusion in post partum hemorrhage **Dr Yasmine Ellouze**

How to deal with spinal anesthesia failure **Dr Hayen Magherbi**

Parturient with pulmonary hypertension : what is the appropriate anesthesia and analgesia strategy **Dr Adnen Berdai**

Urgent cesarean delivery with hemostatic disorders: how to deal ? **Dr Sahar El Euch**

## 15h30-16h30: Break & Exhibition hall visit

## 16h30-17h45

### **Session** : *Neurological intensive care*

Early brain injury in subarachnoid hemorrhage **Dr Saber Thamloui**

Hemostasis and brain injury **Dr Nader Baffoun**

Delayed cerebral ischemia in subarachnoid hemorrhage **Dr Sigismond Lasoucki**

Cerebral perfusion, pressure or flow : the aim is a tailored approach **Dr Hedi Gharsallah**
